Conference Agenda

9:00-9:30 Check-in (Coffee and Pastries)

Caroline Peattie - Executive Director, Fair Housing of Marin
Judy Arnold - Marin County Supervisor

9:45-10:45 **KEYNOTE ADDRESS - How Government Policies have Shaped Segregated Housing Patterns in the Nation and the Bay Area**

Richard Rothstein - Research Associate of the Economic Policy Institute / Professor, Writer and National Speaker on Racial Justice and Segregation

In the Bay Area and nationwide, we have established a system of state-sponsored (“de jure”) segregation, whose effects endure and whose remedies are constitutionally required. However, there is presently no political support for such remedies, in large part because there is a broadly shared consensus that we now experience “de facto” segregation, the result of income differences, personal choice, and private discrimination. In fact, however, the federal government, along with the state and local governments, implemented a series of racially explicit and purposeful policies throughout the 20th century that were designed to segregate the Bay Area and other metropolitan areas by race. These policies – including those of the Federal Housing Administration, local housing authorities, the Internal Revenue Service, city planners, and local zoning agencies, were so powerful that it will require equally powerful and intentional policies to undo their effects.

We now have a Fair Housing Act that prohibits ongoing discrimination, but we have not yet implemented constitutionally required policies to reverse past policies of governmentally-required segregation. Until there is an awareness of the explicit government policies that have created and maintained residential segregation, there is no possibility of undertaking specific action steps to remedy them. Along with aggressive enforcement of the Fair Housing Act, our challenge now is one of public education (in the broad sense) to build understanding of the need for steps to remedy governmentally sponsored residential segregation.

Building on the morning presentation on the history of segregation, we will discuss the broader impacts of segregation on the lives of individuals and communities, as well as the benefits of greater inclusion and diversity, and delve into the ways in which employment, education, health, environment, and transportation impact and are impacted by housing opportunities.

Conference Agenda

12:30-1:30 Lunch (Provided)

1:30-3:00 **SESSION 2 - Breaking Down Barriers: Expanding Housing Choice & HUD's New Rule**

Sara Pratt, Counsel - Relman, Dane & Colfax, PLLC

Moderator: Johnathan Logan, Special Assistant to the President -
Marin Community Foundation

The obligation that recipients of HUD funding have to take active steps to break down the barriers of segregation and expand housing choice – known as “affirmatively furthering fair housing, or AFFH” - has a new look and a new focus. We all pay the cost when communities are disinvested and left behind and when people’s choice of where to live is dictated by the color of their skin, their ethnicity, or whether they have children or a disability. Recognizing this, HUD’s new AFFH rule focuses on careful examination of key fair housing problems and what caused them, using data and local knowledge to develop an organized and thoughtful way forward that will result in actual changes. This session will discuss specific fair housing issues as they might apply to Marin County and surrounding areas and the potential consequences of failing to address them meaningfully.

3:00-3:10 Break

3:10-3:15 Short film

3:15-4:30 **SESSION 3 - Call to Action: Coming Together to Build Inclusive Communities**
